BACK COVER:

**SHOCKING. CONTROVERSIAL. UNPRECEDENTED.**

**A CASE UNLIKE ANY OTHER IN THE ANNALS OF UFO  
INVESTIGATION, DNA RESEARCH, OR ALIEN ABDUCTION.**

**Sydney, Australia. July 23, 1992.** Twenty-eight-year-old Peter Khoury was awoken by what appeared to be two females – both striking and unearthly – kneeling on his bed. What transpired between them was a physical assault as terrifying and disorienting, as it was unnatural. Then, as quickly as they had arrived, they vanished. Khoury had become one of a legion of alien abductees with inexplicable experiences, but this particular incident **stood** apart from all the others. This time, there was evidence – two strands of white-blonde hair **from one of the females**.

Khoury's case would result in the very first **forensic DNA analysis of "alien abduction" evidence and revealed an extraordinary** biological anomaly – one

genetically close to human yet almost impossibly far from the human mainstream. A gripping account of one of the great mysteries of our time, *Hair of the Alien* brings us closer than ever before to understanding our past, our origins, and our place in the universe.

**THE RESULTS ARE NOTHING LESS THAN STARTLING.**
